### Active CBD Oil - Pet Tincture, Chicken Flavored - 300mg

Just like humans, our pets also have an endocannabinoid system and can potentially benefit from CBD. Pet tinctures are a fun way to integrate CBD into the foods that your pet already enjoys. Our Active CBD oil Chicken Tincture contains 10mg of broad spectrum CBD per dropper. Broad spectrum CBD refers to the oil containing trace amounts of CBN, CBC, CBG and other minor cannabinoids but is THC-free.

## How to Use CBD for Your Pet

The general dosing guidelines provided on the Dog Biscuits works great for all size animals.

Pet tinctures can be added directly to your dog's food or can be used sublingually. For humans, it is best to apply directly under your tongue and wait for 30-60 seconds before swallowing for best absorption. For dogs, their blood vessels are highly concentrated on their cheeks rather than under their tongue. For best absorption, you place the oil on the inside of their cheeks or use the dropper to place directly into their mouth.
